Honorable Board of Directors
Yuima Municipal Water District
34928 Valley Center Road
Pauma Valley, CA 92061-0177

We are pleased to present the Yuima Municipal Water District's ("District") Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2010. The purpose of the report is to provide the board, citizens, creditors, investors, and other interested parties with reliable financial information about the District.

This report was prepared by the District's Finance Department following the guidelines set forth by the Government Accounting Standards Board (GASB) and in accordance with Generally Accepted Accounting Principles (GAAP). Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with District management. We believe the data, as presented, is accurate in all material respects and that it is presented in a manner that provides a fair representation of the financial position and results of operation of the District and includes all disclosures necessary to enable readers to gain the maximum understanding of the District's financial activity. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A), which should be read in conjunction with this report. The District's MD&A can be found immediately following the Independent Auditors' Report.

The District's financial statements have been audited by Teaman, Ramirez and Smith Inc., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statement of the District for the fiscal year ended June 30, 2010, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified ("clean") opinion and that the District's financial statement for the fiscal year ended June 30, 2010, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The 2009-2010 fiscal year was another challenging year. We are very proud of the results we achieved, which are presented throughout the pages of this report. The hard work and commitment of our Board, management, and every staff member at Yuima is reflected in the information included here. We encourage you to review the information presented in this report.

DISTRICT FORMATION, ORGANIZATION AND HISTORY

The District is a publicly-owned water agency, organized on January 19, 1963 as a California special district by the State Legislature, with an entitlement to import water under the provisions of the *California Municipal Water District Act of 1911*, section 71000 *et seq.* of the *California Water Code* as amended. The Organization was formed for the prime purpose of importing Colorado River water to augment local water supplies.

Prior to the District's formation, the sole source of water was local ground water on the alluvial fan and the San Luis Rey River basin. Following a period of drought extending back to 1949, coupled with increased agricultural water demands, the water table fell drastically and overdrafts of the underlying water basin lowered the basin's level as much as 85 feet, forcing the abandonment of some wells and giving rise to increased pumping costs. This condition also prompted the filing of the *Strub vs. Palomar Mutual Water Company* suit to which the District is successor in interest and which limits the withdrawal of water by the Improvement District "A" (IDA) from the San Luis Rey River upstream of Cole Grade Road to no more than 1,350 acre feet annually.

Yuima, as successor in interest to Palomar Mutual continues to operate the former Palomar Mutual system and properties (now known as Improvement District A) as an independent water system. Yuima is responsible for administering IDA's compliance with *Strub et al.*, which however does not affect or bind the 60% of the District which is outside of IDA and which operates under a separate system permit.

The District's ordinances, policies, taxes, and rates for service are set by the five Directors, who are elected by voters in their respective geographic divisions, to serve staggered four-year terms on its Governing Board. The Board of Directors (Board) governs the District. The Board manages the District through an appointed general manager. The District's management team also includes two department heads who oversee the Finance and Operations Departments. For most of the fiscal year there were 11 full time employees working for the District. Following the elimination of 2 full time positions there are currently 9 full-time employees working for the District.

The financial data presented herein includes information for activities and entities that are significantly controlled by the District and for which the Board is primarily financially accountable.

THE REPORTING ENTITY AND ITS SERVICES

The District is a "revenue neutral" public agency, meaning that rates are set based on projections so that each end-user pays his or her fair share of the District's costs of water acquisition, operation and maintenance, betterment, renewal and replacement of the public water facilities. The district is an "Enterprise" district, in that operations are financed and operated in a manner similar to private business enterprises – where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis is to be financed or recovered primarily through user charges; or where periodic determination of revenues earned, expenses incurred, and/or net income is deemed appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Since the District is in the business of selling water and rendering services to an end user, it is required by the State of California to follow the enterprise type of fund accounting. All proprietary funds are accounted for on a cost of services or "capital maintenance" measure focus. This means that all assets and all liabilities (whether current, non-current or restricted) associated with the activity are included in the balance sheet.

The District provides water and fire protection services. The District has established and maintains various self-balancing groups of accounts in order to enhance internal control and to further the attainment of other management objectives. These groups of accounts, which are funds and sub-funds of the reporting entity, are identified in the District's books and records as:

- ✓ General Fund
- ✓ Improvement District A Fund
- ✓ Fire Fund

The General Fund accounts for all activity related to water operations as well as the general operations of the District's water operations. Improvement District A Fund accounts for water operations, capital assets, and construction-in-progress transactions related exclusively to that geographically defined area. The Fire Fund acts as a pass-through mechanism for revenues collected on behalf of the California Department of Forestry and Fire Protection (CalFire), to fund the fire protection operations.

CURRENT ECONOMIC CONDITIONS AND OUTLOOK

The San Diego economic outlook remains unchanged for 2010 with a slow to moderate growth into the first half of 2011 according to the latest leading economic indices published in June 2010 by the Burnham-Moores Center for Real Estate at the University of San Diego. The indices show that San Diego County's indicators were up slightly at 109.4 compared to the previous one at 109.2. Highlights of their study state that residential units authorized by building permits hit higher levels since last year; initial claims for unemployment insurance were negative for two consecutive months indicating less jobs were lost.

The challenge will be whether or not these small signs of economic improvements will persist when a new wave of future home foreclosures, as laid-off workers default on mortgages, and a pullback by the feds of their economic stimulus programs which will impact local construction activities.

Another potential obstacle to the recovery of local economies is the fiscal crisis facing all levels of government, particularly, the State of California and the City of San Diego with their huge budget deficits. Since property tax increases were voted down, there will likely be big cuts in state services and employment.

In the county generally, water use restrictions, as well as the rapid increase in wholesale water rates have driven many growers to dramatically cut back or cease operations of their avocado and citrus groves. In 2010 the California Avocado Commission reported that in 2005 there were 8,881 acres of productive avocados in the Valley Center area compared to 6,667 in 2010, a reduction of 25%. The growers in the Pauma Valley area specifically have not been affected by those mandatory water cut backs due to the local water available in the area.

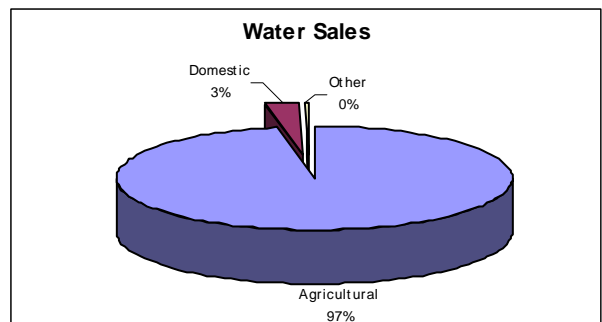

Over the last 47 years, the District has grown to be a strong agricultural community. Today the District serves a population of 1,966 through 342 service connections provided within approximately 21 square miles of northern San Diego County. The District operates 40.4 miles of water main, 21 productive wells, 10 potable water tanks, and 2 reservoirs.

It appears unlikely that population growth will be a significant factor within the next five years. No major housing developments are planned, and even if a project were initiated today, it would take at least five years to obtain the appropriate zoning changes and complete construction. It is estimated that population growth will not exceed 1% per year over the next five years. Considering that only about 3% of total District demand is residential, the increase in population growth is expected to be negligible with respect to overall water demand during the next few years.

In fiscal year 2009-10 the District purchased approximately 47% of its water from the San Diego County Water Authority (SDCWA or the "Authority") and 9.6% of its water from local water agreements, at a cost of \$1.8 million, or 31% of the District's operating expenses. The Authority imports most of its water from the Metropolitan Water District of Southern California (MET). For the fiscal year ended June 30, 2010, the District billed 342 customers for 5,310 acre feet of water, representing a 15% decrease in sales from the prior fiscal year.

Water sales for the past ten years have ranged from 5,310 to 7,633 acre feet. Because a large portion of our sales are to agriculture, sales are greatly affected by weather conditions, making sales projections difficult. In fiscal year 2009-10 the Pauma Valley area received over 21" of rainfall contributing to the lowest year of sales in the past 10 years. Total system demand is anticipated to be driven by irrigated agriculture which is estimated to constitute in excess of 94% of all water delivered.

Our agricultural customers purchased 97.8% of the District's total water sales in fiscal year 2009-10 compared to the average of 98.2% of the District's water sales over the previous ten year period. As water is one of the largest production costs for farmers in San Diego County, rapidly increasing wholesale water rates and the mandatory cutback have impacted growers in the area. The significant price increases for imported water along with the substantial decreases in water sales have made it difficult to project long-term sales demand forecasts.

Since May of 1994, the Metropolitan Water District's Interim Agricultural Water Program (IAWP) has provided a discount to qualifying agricultural water users. In addition, the San Diego County Water Authority offers an agricultural rebate on their water rate. In exchange for reduced rates, agricultural customers agree to have their water supply reduced first during droughts and other emergencies. Since the inception of the program, our agricultural customers have seen a savings of over \$5.5 million dollars through both programs.

In 2008, Met approved a 4-year phase out period of the IAWP program, which will no longer exist as of January 1, 2013. The decisions are the consequence of sustained multi-year drought conditions and judicially imposed restrictions on the transfer of water through the Sacramento Delta. The court restricted the amount of water that can be pumped and delivered from the State Water Project because the condition of the Delta fails to provide a healthy ecosystem for a variety of fish and other wildlife. The costs to repair the Delta will result in higher prices for water in the future, but with improved supply reliability.

As a part of Metropolitan's agricultural credit program, mandatory cut backs in agricultural deliveries were implemented by MET in January 2008 due to State-water supply constraints in California. Metropolitan enforced a mandatory cutback of 30% on all IAWP participants against a base year of 2006-07. Fortunately the District is able to augment the imported supply (from MET through SDCWA) with additional local water from its own wells and other private local wells; such local supplies account for about 50%-60% of all water sold by the District. Due to favorable weather conditions and exceptional

participation from our farmers in scheduling irrigation, this resulted in a 10% cutback in January, 2010 and 0% cutbacks for the rest of the year. It is estimated that the District will be able to maintain 0% cutbacks through December 2010.

LONG-TERM FINANCIAL PLANNING

The coming years will be challenging times for everyone in the industry. Following Governor Schwarzenegger’s declaration of a statewide drought in California in June of 2008 and the implementation of MET’s phase-out of the IAWP program, the District has implemented programs to comply with mandatory limits on imported water supplies, while at the same time seeking to minimize the impact of water restrictions on its customers by increasing local supplies.

Clearly, water shortages have the potential to adversely impact the finances of the District, and staff is working diligently to prepare for the consequences of an extended drought, should one occur. With that in mind, practices and policies have been put into place by the Board to ensure the strength and stability of the District as we move forward into uncertain times. These actions will assure our success as an organization and the well-being of the customers we serve.

ACCOMPLISHMENTS IN FISCAL YEAR 2009-10

HEGARDT PIPELINE REPLACEMENT

During the current reporting period, the District completed construction of the replacement of 1,410' 8" C-900 Pipeline along the slopes of the West Mesa.

EASTSIDE FAN WELL

The District outfitted the new Eastside Fan well. This well provides local production to the Improvement District. In addition to outfitting the IDA Eastside well, wells 14 & 19 received new pump and motors.

NORTHERN ROUTE PIPELINE PROJECT

The District and its prospective partner, the San Luis Rey Indian Water Authority (“SLRIWA”), completed the Environmental Impact Report/Environmental Assessment for the proposed Northern Route Pipeline Project in the prior fiscal year. The proposed pipeline would be operated by the District, jointly owned by the District and the SLRIWA and would allow the District to import water from MET at a significantly lower unit price by virtue of avoided costs for pumping and SDCWA transportation charges. At the same time, the SLRIWA would use its capacity in the pipeline to transport some or all of the 16,000 acre-feet of Colorado River Water to which it is entitled to under the provisions of the 1988 San Luis Rey Indian Water Rights Settlement Act (Public Law 100-675).

The Board has deferred a final decision whether to proceed with the project at this time, because that decision will largely hinge on a timely re-assessment of long-term prospects for the availability of imported water from the State Water Project and the Colorado River system. The total cost of the study in the amount of \$1,303,172 was closed out this year to prior period adjustment. In addition, the total cost of the Local Ground Water Study (LISA Project) in the amount of \$440,023 was also closed out this period.

LOCAL GROUNDWATER

In June, 2010 the District entered into an agreement to purchase local water from the V/O Pauma Development, L.P. near Highway 76 next to the Pauma Valley Country Club. The local production from this source will go directly into the Yuima General District system to help off-set the reduction in production from other local water agreements (Schoepe). In addition, the Improvement District entered into a contract to drill Horizontal wells in the IDA watershed. If successful, this additional production will help off-set the amount of imported water purchases to the Improvement District. These new sources will aid the District materially in compensating for the loss of some 1,088 acre-feet of imported water due to the IAWP cutbacks.

FINANCIAL INFORMATION AND INTERNAL CONTROLS

INTERNAL CONTROLS

District management is responsible for establishing and maintaining a system of internal controls designed to ensure that the District's assets are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the presentation of its Financial Statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable assurance that these objectives are met as effectively as possible. The concept of reasonable assurance recognizes that the cost of maintaining the system of internal controls should not exceed benefits likely to be derived, and that the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework.

Management believes that activities presented within this report comply with financial, legal, and contractual obligations, as prudent fiduciary responsibility requires. In addition, we believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. During the year, additional internal control improvements have been made, and we continue to identify ways in which we can strengthen our procedures.

ACCOUNTING SYSTEM

The Finance department is responsible for providing financial and administrative services for the District, including financial accounting and reporting, payroll and accounts payable disbursement functions, cash, investments and debt management, budgeting, grant administration, purchasing, data processing, customer billing, processing of customer payment, customer service, internal auditing, administrative services, human resources, and special financial analyses. The District reports its activities as an enterprise fund, which is used to account for operations similar to business enterprises, where the intent of providing services is financed or recovered primarily through user charges.

BUDGETING CONTROLS

The District views the budget as an essential tool for proper financial management. Although not legally required to do so, the District adopts a budget annually to outline major elements of the forthcoming year's operating and capital plans and to allocate funding required for those purposes. It is designed and presented for the general needs of the District, its staff, and its customers. It is a comprehensive and for the most part a balanced financial plan that features District services, resources and their allocation, financial policies, and other useful information to allow users to gain a general understanding of the District's financial status and future. The District's operating and capital budgets are approved by the Board of Directors. Board approval is required for any increase in appropriations. Actual expenditures are then compared to these appropriations on a monthly basis and are distributed to all department heads monthly and to the Board quarterly.

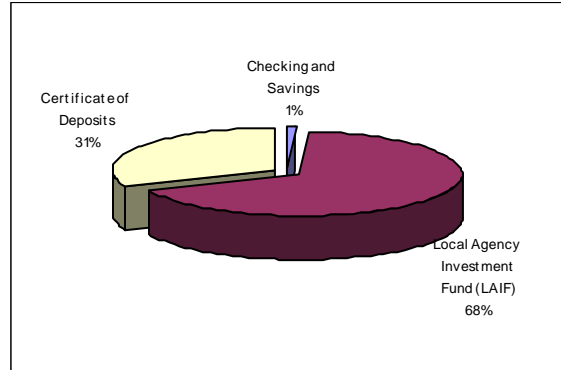

Annual operating water user rates and charges are derived from the annual operating budget and are based on historical seasonal demand, and other internal and external factors impacting the budget. The District maintains two sets of user rates and charges to account for the differing entitlement of the respective geographic areas to local water. One set is for the General District and the other for Improvement District A. Higher pumping charges apply in higher elevations within the District.

CASH MANAGEMENT

The District is regulated by State law (primarily California Government Code Section 53600 et seq.) as to the types of securities in which it can invest its cash assets. In addition, the Board of Directors annually adopts an investment policy that is generally more restrictive than the State codes. The standard practice of the District is to maintain an appropriate balance between safety, liquidity, and yield of its investments while meeting required expenditures, and conforming to all applicable State laws, the District's investment policy, and prudent cash management principles.

For the fiscal year 2009-10, the District's fixed income investment portfolio consisted primarily of short-term securities with an average maturity of 9.8 months. These securities included the State-managed Local Agency Investment Fund (LAIF), a mutual fund, and various Certificates of Deposit (CD's).

At June 30, 2010, the District's cash assets totaled \$3.4 million. The diversification of the portfolio is shown in the chart to the right. These cash balances are allocated to various restricted funds.

RISK MANAGEMENT

In 1996, the District became a member of the Joint Powers Insurance Authority (JPIA), a pooled insurance program developed by the Association of California Water Agencies, that provides the District's coverage for general liability insurance, property insurance, employee bonds, and other blanket coverage's. In 2003 the District added the worker's compensation coverage under JPIA. During fiscal year 2009-10, the District continued its proactive liability risk management role through careful monitoring of losses and designing and implementing programs to minimize risks. In addition, management analyzes workers' compensation issues by monitoring work conditions, and organizing and implementing safety training programs to reduce employee exposure to hazards. The District proudly maintains an excellent minimal loss history.

PENSION AND DEFERRED COMPENSATION PLANS

The District provides two complementary retirement plan programs for employees. The first is a defined benefit pension plan through the California Public Employees' Retirement System (CalPERS). The District contributes a specified percentage of covered employees' payroll, which is invested by CalPERS. Upon retirement, District employees are entitled to a specified retirement benefit. The plan is more fully described in Note 5 to the Financial Statements.

In addition, the District has adopted a Deferred Compensation Plan in accordance with Section 457(b) of the Internal Revenue Code. All contributions to the Deferred Compensation Plan are employee contributions. The employees are not liable for income taxes on amounts deferred until the funds are withdrawn. The deferred compensation plan was amended May 26, 2009, in accordance with recent changes in the Internal Revenue code. In accordance with these and previous Internal Revenue code revisions, all assets in the Plans are held in trust for the exclusive benefit of the participants and their beneficiaries and therefore are not recognized in the accompanying financial statements. As of June 30, 2010, 7 employees were participating in the 457(b) plan and had accumulated assets of \$304,761.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Yuima Municipal Water District for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2009. This is the second year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In August of 2008, the District was formally recognized for having their written investment policy certified by the Association of Public Treasurer’s of the United States and Canada (“Association”). The District’s policy was reviewed and certified as meeting the standards set forth by the Association. The District was honored at the Association’s 43rd Annual Conference.

Yuima is one of 33 governments to have its investment policy certified by the Association’s Investment Policy Certification Program (“Program”), which was developed in 1990. The Program was instituted in an effort to assist state and local governments interested in drafting or improving upon an existing investment policy.

The District’s policy included 18 sections that the Association deems as critical elements; liquidity; selection and review of suitable investment instruments; internal controls; reporting; portfolio diversification; custody and safekeeping; selection of investment institution criteria; ethics; and conflicts of interest.

A written investment policy is only certified when the Association’s Investment Policy Review Team acknowledges that the policy has met all criteria set forth in the Program. The Certificate is valid for a period of three years, at which time it is recommended the policy be recertified.

ASSOCIATION OF CALIFORNIA WATER AGENCIES, JOINT POWERS INSURANCE AUTHORITY (ACWA/JPIA) “PRESIDENT’S SPECIAL RECOGNITION AWARD”

Each year, ACWA/JPIA reviews the insurance claims history of all agencies participating in the Liability, Property, and Workers’ Compensation pooled insurance programs. Those agencies that have maintained a ratio of 20% or less when comparing claims paid versus premiums paid are awarded a certificate of recognition. The district received the *President’s Special Recognition Award* from JPIA for achieving a low loss ratio in the worker’s compensation and liability programs since 2005, demonstrating staff’s dedication to maintaining an aggressive risk management strategy for reducing accidents and losses while promoting a safe and healthy working environment.

CONTACTING THE DISTRICT’S FINANCE DEPARTMENT

This financial report is designed to provide the Board, customers, creditors, and investors with a general overview of the District’s Financial condition. Should you have any questions regarding the content of this report, please contact Lori A. Johnson, Yuima Municipal Water District’s Director of Finance, at (760) 742-3704.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the contribution of the Finance Department and our independent auditor, Teaman, Ramirez and Smith, Inc. We would like particularly to thank the Board of Directors for their continued interest in and support of the highest level of prudent fiscal management.

Respectfully Submitted:

Linden A. Burzell,
General Manager

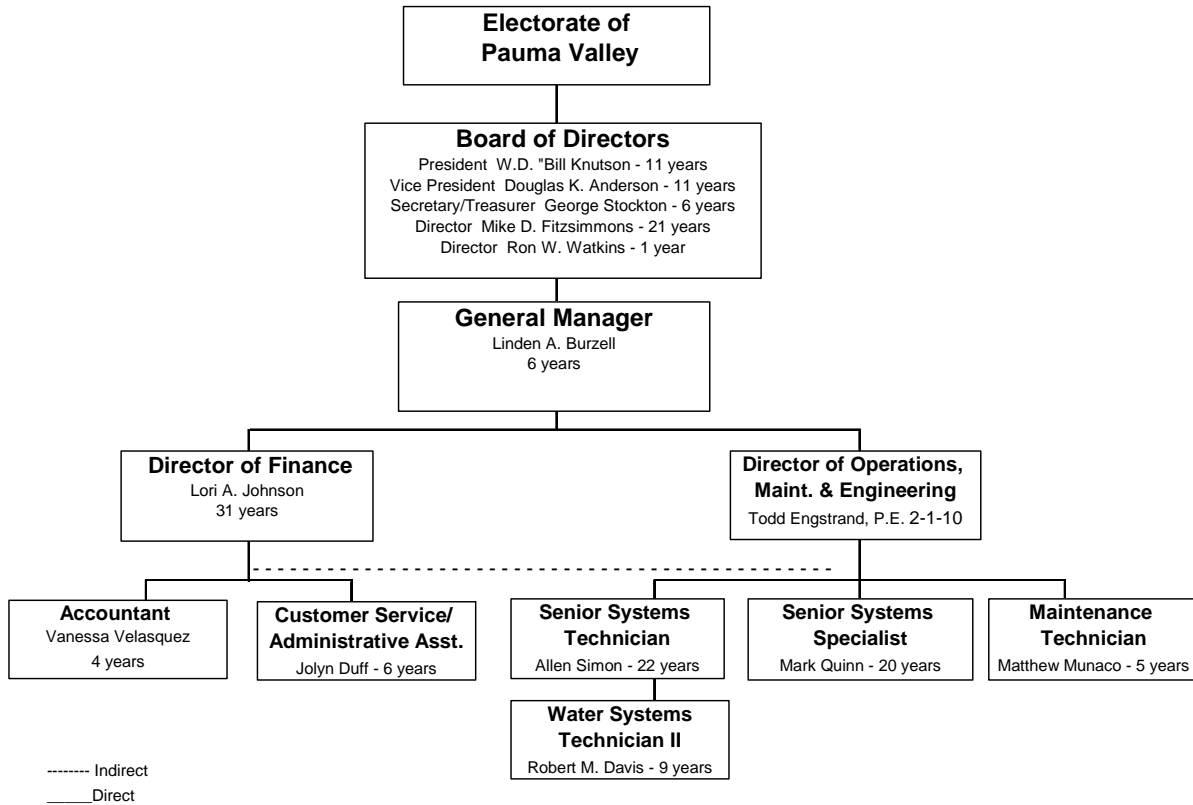

Lori A. Johnson,
Director of Finance

President

Executive Director

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Yuima Municipal Water District
Yuima, California

We have audited the accompanying financial statements of the governmental activities, business-type activities and each major fund of the Yuima Municipal Water District, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, business-type activities and each major fund of the Yuima Municipal Water District as of June 30, 2010, and the respective changes in financial position and cash flows where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated January 28, 2011, on our consideration of the District's internal control over financial reporting and on our tests of the District's compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The information identified in the accompanying table of contents as *Management's Discussion and Analysis* and *Required Supplementary Information* are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements that collectively comprise the Yuima Municipal Water District's basic financial statements. The introductory section and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Teaman Ramirez & Smith, Inc.

January 28, 2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

Fiscal Year Ended June 30, 2010

This section of the Yuima Municipal Water District's Comprehensive Annual Financial Report (CAFR) presents Management's Discussion and Analysis of the District's financial performance for fiscal year ended June 30, 2010, and includes the Governmental Accounting Standard Board's (GASB) enhanced financial reporting requirements. We offer readers of the Yuima Municipal Water District's financial statements this narrative overview and analysis of the financial position and results of operations for the fiscal year ended June 30, 2010. The letter of transmittal can be found on pages i-vii and should be read in conjunction with the audited financial statements. The audited financial statements are located in the section following the MD&A.

FINANCIAL STATEMENTS OVERVIEW - FISCAL YEAR ENDED JUNE 30, 2010

This discussion and analysis is intended to serve as an introduction to the Yuima Municipal Water District's basic financial statements. The Yuima Municipal Water District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The financial statement present the financial position, results of operation, and changes in cash balances using the accrual basis of accounting. This methodology is used to account for operations that are financed and operated in a manner similar to business enterprises, where services provided are paid through user charges.

The *Government-wide Financial Statements* are designed to provide readers with a broad overview of the Yuima Municipal Water District's finances, in a manner similar to a private-sector business. The required financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. These statements offer short-term and long-term financial information about the District.

Statement of Net Assets - The Statement of Net Assets presents the District's financial position relating to assets and liabilities. Assets in excess of liabilities (Net Assets) for fiscal year 2009-10 decreased \$2,137,269 over fiscal year 2008-09, from \$15,593,773 to \$13,456,504, which correlates to the \$2,137,269 decrease as presented on the Statement of Activities. Of this amount, \$3,605,272 may be used to meet the District's ongoing obligation to citizens and creditors.

Statement of Activities and Changes in Net Assets - The Statement of Activities and Changes in Net Assets accounts for all activities during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). This statement measures the success of the District's operations during the reporting period and can be used to assess whether or not the District has successfully recovered all of its costs through its user fees and other charges. This statement also measures the District's solvency and ability to meet its financial commitments.

ANALYSIS OF FINANCIAL POSITION AND RESULT OF OPERATIONS

The District's overall financial position continues to be strong as evidenced by the calculated results of the current, quick, and debt-to-equity ratios. Selected financial ratios are a measurement of how effectively the District can meet its current obligations. The current ratio (current assets divided by current liabilities) indicates that the District has the ability to pay 6.03 times its current debt from current assets. However, some current assets are not easily converted, or will never be converted to cash (e.g. inventories and prepaid insurance). The quick ratio - quick assets (cash, liquid investments, and accounts receivable) divided by current liabilities - measures how effectively the District can meet obligations with assets readily convertible to cash. Performance of this calculation shows that the District can pay 5.4 times its current obligations with assets readily convertible to cash. The June 30, 2010, debt-to-equity ratio calculations indicate increases for the current year, they are reflective of year-to-year fluctuations, and are discussed below.

In comparing each of these ratios with the previous fiscal year calculations, the current ratio increased 2.5 from 3.53 to 6.03, the quick-ratio also increased 2.12 from 3.28 to 5.4, and the debt-to-equity ratio decreased \$.17 from \$4.33 to \$4.16. The increase in the current and quick ratios are attributable to changes in the reporting of current liabilities, namely the reclassification of compensated absences and net OPEB obligations to noncurrent liabilities. As in prior years, the District's current, quick, and debt-to-equity ratio calculations continue to reflect significant financial strength.

Analysis of Net Assets - As reported in the Statements of Net Assets, the net assets decreased between fiscal years ending 2009 and 2010 from \$15,578,776 to \$13,446,228. This decrease includes a special item of \$1,743,195 for the restatement of a feasibility study (Northern Route Pipeline and The Local Groundwater Study "LISA") previously capitalized as construction in progress and now expensed in accordance with the new GASB Statement No. 51. Net assets invested in capital assets, net of related debt, decreased \$1,894,256, and unrestricted net assets decreased \$243,013.

ANALYSIS OF GOVERNMENTAL FUND AND GOVERNMENTAL ACTIVITIES – FIRE FUND

The District's fire protection fund to the government-wide financial statements has no reconciling items from the modified accrual to a full accrual basis. The information below provides an analysis of the increases or decreases in the activities for the governmental fund and governmental activities since the information on both the government-wide and fund statements reflect the same reported figures.

The key factors in the decrease of the Fire Protection Activities net assets and fund balance is as follows:

- ▶ The Fire Protection revenues totaling \$216,364 were not sufficient to cover the expenditures of \$221,085 resulting in a decrease in net assets totaling \$4,721 for the fiscal year. This trend is expected to continue until there is a significant increase in new home construction in the area increasing fire tax revenues.

ANALYSIS OF PROPRIETARY FUND AND BUSINESS-TYPE ACTIVITIES – WATER OPERATIONS

The District's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. Below is an analysis of the increases or decreases in the activities for the proprietary fund and business-type activities.

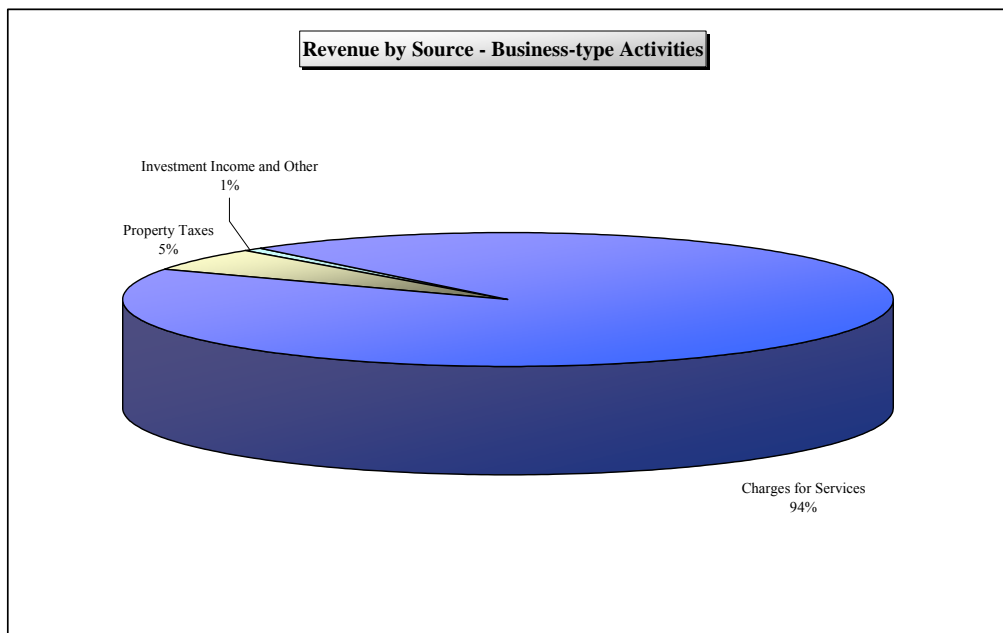

Statement of Revenues, Expenses, and Changes in Net Assets - The Statement of Revenues, Expenses, and Changes in Net Assets present the District's results of operations. In accordance with generally accepted accounting principals, revenues are recognized (recorded) when services are provided, and expenses are recognized when incurred. Operating revenues and expenses are related to the District's core activities. Nonoperating revenues and expenses are not directly related to the core activities of the District (e.g. interest income, property taxes, and interest expenses). The operating loss for the year ended June 30, 2010, of \$1,013,308, is combined with total nonoperating revenues of \$760,100 and non-operating expenses of \$136,145 to arrive at the decrease in net assets of \$389,353. The decrease in net assets and special item of \$1,743,195 is subtracted from the beginning net assets of \$15,578,776 to arrive at the ending net assets total of \$13,446,228 as of June 30, 2010.

Change in Net Assets - The District's operating revenues were \$6,517,992 for the year, \$391,479 or 6.4% higher than the previous year. This is due to higher commodity charges.

The District's operating expenses increased \$1,057,554, or 16.3% to \$7,531,300. Operating expenses increased due to the increase in the price of water purchased, \$847,564 and general plant expenditures, \$180,181, which includes exploratory well drilling charges. The lower pump and energy costs are net of a one-time credit from SDG&E for over collection of natural gas related charges.

The District's investment income decreased \$69,288 largely due to the amount of available cash invested and lower investment yields during the year. The decrease in property taxes, assessments and other contributions represents the contribution made in the prior year from the San Luis Rey Indian Water Authority in the amount of \$381,000 for the Northern Route Study.

Analysis of Statement of Revenues, Expenses, and Changes in Net Assets - Revenues for the year ended June 30, 2010, totaled \$7,278,093, which is a decrease of \$534,976, or 6.8% from the prior year.

Details of this decrease in revenues are as follows:

- Water Sales including associated customer fees and charges increased by 6.4%, or \$391,479 for this fiscal year ended June 30, 2010. There was a 10.1% decrease in the volume of water sold. In 2009-10 5,310 acre feet of water were billed compared to 5,909 acre fee in the prior year.
- Property taxes and assessments decreased by 7.6%, or \$33,537, from 2008-09 to 2009-10. Because of current economic conditions, assessed values decreased 7.4% from the previous year.
- Investment income was down 53.2% , or \$69,288, from the prior year. The decrease is a result of lower yields earned during the year coupled with lower cash reserves.
- There were no new meter installations and no related meter capacity fees collected during the year.
- Other nonoperating revenues decreased 35.6% or \$384,067 largely due to the contributions for the Northern Route Study in the prior year.

Expenses for the year ended June 30, 2010, totaled \$7,667,445, which is an increase of \$926,140, or 13.7% increase from the prior year. Certain significant expenses are as follows:

- The cost of water sold increased 34.8% over the prior year, while water deliveries decreased, because of higher wholesale water prices. In 2008-09 the District purchased 2,347 acre feet of water at an average price of \$703.92 per acre foot. In the current year, the District purchased 2,521.8 acre feet of water at an average price of \$843.53 per acre foot, an increase of 19.8% or \$139.61 per acre foot. The average price per acre foot is impacted by the fixed components of the Metropolitan Water District of Southern California (MET) and San Diego County Water Authority (SDCWA) rate that the District must pay regardless of water sales. These fixed components include: a capacity reservation charge by MWD and customer service and emergency storage program charges by the SDCWA.
- Agricultural discounts received were \$380,619 for fiscal year 2009-10.
- Pumping and energy costs decreased \$144,704 due to lower demand, and largely due to a \$66,472 a one-time credit for over collection of natural gas related charges by SDG&E in prior years.
- General Plant expenses increased 176% due to exploratory well drilling expenditures.
- Depreciation expense in 2009-10 increased 8%, or \$34,690, from the prior year.

Schedule of Revenues, Expenses and Change in Net Assets

	Proprietary Fund		Increase/	Percent
	2010	2009	(Decrease)	Change

Statement of Cash Flows - The Statements of Cash Flows present the amounts of cash provided or used by the District's operating, financing, and investment activities. Every cash flow has been categorized as one of the following activities: operating, noncapital financing, capital and related financing, or investing. The total of these categories for the year ended June 30, 2010, represents a decrease in cash and cash equivalents of \$387,670 which is combined with beginning cash and cash equivalents of \$3,857,754 to arrive at ending cash and cash equivalents of \$3,470,084.

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18 - 37 of this report. The government-wide financial statements can be found on pages 10 - 12 of this report.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Yuima Municipal Water District's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 38 of this report.

CAPITAL ASSETS AND CAPITAL PROJECTS

The District's Capital Assets in service at June 30, 2010 totaled \$17,854,596 less \$7,207,478 of accumulated depreciation, for a net book value of \$10,647,118. Additional information on capital assets can be found in Note 3 to the financial statements. Capital Asset additions being depreciated totaled \$179,599 and included the following:

Capital Asset Additions	
Source of Supply	\$ -
General Plant Additions	62,817
Pumping Plant	64,045
Water Treatment	-
Pipelines (Transmission & Distribution)	52,737
Total	<u>\$ 179,599</u>

Deletions of Capital Assets being depreciated totaled \$118,476 for retirement of pump & motor replacements.

Also, included in the total reported on the Statement of Net Assets is \$51,319 in construction-in-progress reflecting capital projects in various stages of completion. As of June 30, 2010, the following capital projects were in progress:

Construction in Progress	
Exploratory Well Drilling (Wells 41 & 42)	\$ 51,318
Total	<u>\$ 51,318</u>

To help fund capital projects the District collects capacity fees from new development. These fees are restricted and used exclusively to provide capacity to service new development and fund future construction of facilities identified in the District's Master Plan. As of June 30, 2010 all capacity fees collected have been used for this purpose. Growth in the area is slow to none. The District does not expect any change for the next few years.

LONG-TERM DEBT

At the end of the current fiscal year, the Yuima Municipal Water District had total bonded debt outstanding of \$2,147,912, including the portion that is due within one year - \$206,325. The debt was incurred to finance the replacement of Reservoir 8 with a 1.7 million gallon tank and pump station and the construction for the 3 MG Eastside Tank and pump station. Additional information on long-term debt can be found in Note 4 to the financial statements.

The District's outstanding bond indebtedness as of June 30, 2010 is as follows:

Schedule of Bond Indebtedness
For Fiscal Year Ended 2010

Long-term Debt							
Description	Year Issued	Total Bonds Sold	Final Maturity Date	Fixed Interest Rate	Bonds Outstanding (Audited) As of June 30, 2010		
					Current	Long Term	Total
Eastside Tank & Pump Station	2004	\$ 1,500,000	2016	3.73%	\$ 126,301	\$ 706,512	\$ 832,813
Tank 8 and Pump Station	2007	\$ 1,500,000	2022	4.58%	\$ 80,024	\$ 1,235,074	\$ 1,315,098
Total		<u>\$3,000,000</u>			<u>\$ 206,325</u>	<u>\$ 1,941,586</u>	<u>\$ 2,147,911</u>

FUTURE INFRASTRUCTURE PLANNING

Based upon long-term demand forecasts for agricultural and urban development within the current boundaries of the District, coupled with a number of annexation requests expected to be driven by local water shortages affecting both agriculture and new housing in adjacent under-served areas, the District has determined that a new transmission pipeline will be eventually required to bring additional imported water into the District from the First and Second San Diego Aqueduct Pipelines. Two potential routes are under consideration. The first ("Southern Route") would parallel the District's existing 20" pipeline and would be built at the sole expense of the District. The second ("Northern Route") would be a joint venture between the San Luis Rey Indian Water Authority and the District, and would connect to the Metropolitan Water District portion of the aqueduct at a point just north of the jurisdictional boundary with the San Diego County Water Authority.

ECONOMIC FACTORS

The District derives funding for operations from customer rates, fees, and charges. To the extent required, the District has the ability to generate additional funding resources through rate adjustments to cover the costs for providing water services. The District sets its rates annually based upon anticipated consumption. A significant reduction in consumption could have an adverse effect on the District's financial position.

The District sold 31.4% of total water delivered during the year 2009-10 to one customer. The same customer has been one of the top ten water consumers in the District for the last 21 years averaging 28% of the District sales.

The District incurred a \$1,013,308 operating loss during fiscal year 2009-10 and a \$347,234 operating loss during fiscal year 2008-09. The operating loss in 2009-10 is primarily the result of the lower water sales due to weather conditions, higher cost of imported water supplies, pumping costs and salary and benefit costs. The District has historically utilized its non-operating reserves to compensate for these operating losses.

Because of the devastating economic climate, coupled with water shortage issues, all water utilities are faced with significant fiscal challenges. Rising imported water supply costs with declining water sales due to the water rate and the economic downturn makes it difficult to sustain operations.

The continued dry weather conditions and environmental challenges surrounding the Bay Delta (a major source of Southern California's water supply) have resulted in a significant reduction in the availability of the State Water Project to meet imported water demand in Southern California. So far, the District has been able to back-fill these shortages with local ground water, but a continued drought could reduce local supplies, potentially leading to supply shortages in the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's rate payers, bond investors and other interested parties with a general overview of the District's finances, and to demonstrate the District's accountability for the money it received and the stewardship of the facilities it maintains. If you have any questions about this report or need additional financial information, contact the Yuima Municipal Water District's Finance Department, Lori A. Johnson, Director of Finance, 34928 Valley Center Road, Pauma Valley, Ca. 92061, or call (760) 742-3704, or send inquiries to our website @ www.yuimamwd.com.

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES

A) Reporting Entity

The Yuima Municipal Water District (the "District") was formed in January 1963 pursuant to Section 8 of the California Municipal Water district Act of 1911 for the purpose of securing a supplemental water supply from the Metropolitan Water District of California for its irrigation and domestic service within its boundaries. The District is governed by an elected, five-member Board of Directors (the "Board"). The 1963 General Obligation Bonds financed the construction of the necessary pipelines, pumping and storage facilities to bring Colorado River water from the aqueducts owned by the Metropolitan Water District and the San Diego County Water Authority to serve the properties within its boundaries, which cover about 13,460 acres in northeastern San Diego County, California; the District maintains, develops and manages such water distribution system. The District offices are located in Pauma Valley, California.

The accounts of the District are organized on the basis of geographic segments. These groups of accounts, which are subfunds of the proprietary fund, are identified in the District's books and records as the General Fund, Improvement District A, Annexation #1, Fire Fund, and their related capital improvement funds.

The area now known as "Improvement District A" (IDA) was previously Palomar Mutual Water Company ("Palomar Mutual"). Palomar Mutual transferred its lands, water system and water rights, together with its rights, functions and duties as stated in an agreement dated February 11, 1948 between Palomar Mutual and Rossmoyne Village, Inc. to the District in April, 1968. IDA consists of approximately 4,000 acres and is subject to a Stipulated Judgment (Strub vs. Palomar) filed November 10, 1953 and later modified to allow production of no more than 1,350 acre feet of water per calendar year from the San Luis Rey River, up-stream of Cole Grade Road. Yuima, as successor in interest to Palomar Mutual, and continues to operate the former Palomar Mutual system and properties (now known as Improvement District A) as an independent water system (California State System No. 3700938). Yuima is responsible for administering IDA's compliance with *Strub et al.*, which however does not affect or bind the 60% of the District which is outside of IDA and which operates under a separate system permit (System No. 3701408).

The District added another 351 acres, Annexation #1, in November 1967, and another 63 acres, Annexation #2, in November 1969, by revising its boundaries pursuant to the Reorganization Act of 1965 as amended by LAFCO. The District added another six acres, Fitzsimmons Annexation, on March 26, 1991, and de-annexed 27 acres, Adams De-annexation, on March 29, 1991. Hence the District boundaries total 13,460 acres.

The Board of Directors and officers of the District at June 30, 2010 are as follows:

Name	Title	Term Expiration
W.D. "Bill" Knutson	President	January 2011
Douglas K. Anderson	Vice President	January 2011
George Stockton	Secretary/Treasurer	January 2013
Mike Fitzsimmons	Director	January 2013
Ron W. Watkins	Director	January 2011

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

B) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

Governmental Accounting Standards Board Statement No. 51

In June 2007, GASB issued Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. This Statement is effective for financial statements for periods beginning after June 15, 2009. Governments possess many different types of assets that may be considered intangible assets, including easements, water rights, timber rights, patents, trademarks, and computer software. The objective of this Statement is to establish accounting and financial reporting requirements of intangible assets to enhance the comparability of the accounting and financial reporting of such assets among state and local governments. This Statement requires that an intangible asset be recognized in the statements of net assets only if it is considered identifiable. Additionally, this Statement establishes a specified-conditions approach to recognizing intangible assets that are internally generated. This Statement also establishes guidance specific to intangible assets related to amortization. Currently, the District has no intangible assets.

Governmental Accounting Standards Board Statement No. 53

In June 2008, GASB issued Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This Statement addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. Derivative instruments are often complex financial instruments used by governments which include interest rate and commodity swaps, interest rate locks, options (caps, floors, and collars), swaptions, forward contracts, and futures contracts. Governments enter into derivative instruments as investments; as hedges of identified financial risks associated with assets or liabilities, or expected transactions (that is hedgeable items); or to lower the costs for borrowings. Governments often enter into derivative instruments with the intention of effectively fixing cash flows or synthetically fixing prices. Governments also enter into derivative instruments to offset the changes in fair value of hedgeable items. A key provision in this Statement is that derivative instruments covered in its scope, with the exception of synthetic guaranteed investment contracts (SGICs) that are fully benefit-responsive, are reported at fair value. The objectives, terms, and risks of hedging derivative instruments are required disclosures. Disclosures also include a summary of derivative instrument activity that provides an indication of the location of fair value amounts reported on the financial statements. The disclosures for investment derivative instruments are similar to the disclosures of other investments. The requirements of this Statement are effective for financial statements and for periods beginning after June 15, 2009. The District has no investments with derivatives.

Governmental Accounting Standards Board Statement No. 54

In March 2009, GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The initial distinction that is made in reporting fund balance information is identifying amounts that are considered nonspendable, such as fund balance associated with inventories. This Statement also provides for additional classification as restricted, committed, assigned, and unassigned based on the relative strength of the constraints that control low specific amounts can be spent. The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resources providers, or through enabling legislation. The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The assigned fund balance

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

B) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements - Continued

Governmental Accounting Standards Board Statement No. 54 - Continued

classification is for amounts intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2010. The District has elected not to early implement GASB No. 54 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 57

In December 2009, the Government Accounting Standards Board issued Statement No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans". This Statement amends Statement No. 45. "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions" to permit an agent employer that has an individual-employer OPEB plan with fewer than 100 members to use the alternate measurement method, at its option, regardless of the number of total plan members in the agent-multiple employer OPEB plan in which it participates. Consistent with this change to the employer-reporting requirements, this Statement also amends a requirement in Statement No. 43. "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans," that a defined benefit OPEB plan obtained an actuarial valuation. The amendment permits the requirement to be satisfied for an agent-multiple employer OPEB plan by reporting an aggregation of results of actuarial valuation of the individual-employer OPEB plans or measurements resulting from use of the alternative measurement method for individual-employer OPEB plans that are eligible.

In addition, the Statement clarifies that when actuarially determined OPEB measures are reported by an agent multiple-employer OPEB plan and its participating employers, those measures should be determined as of a common date and at a minimum frequency to satisfy the agent multiple-employer OPEB plan's financial reporting requirements. This pronouncement did not have a material effect on the financial statements of the District for the year ended June 30, 2010.

Governmental Accounting Standards Board Statement No. 58

In December 2009, the Governmental Accounting Standards Board issued Statement No. 58, "Accounting and Financial Reporting for Chapter 9 Bankruptcies". This pronouncement is effective for periods beginning after June 15, 2009. Early application is encouraged. Retroactive application is required for all periods presented during which the government was in bankruptcy. The objective of this Statement is to provide accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. It requires governments to re-measure liabilities that are adjusted in bankruptcy when the court approved a new payment plan. The District has not filed for bankruptcy protection as of June 30, 2010.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

B) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements - Continued

Governmental Accounting Standards Board Statement No. 59

In June 2010, Governmental Accounting Standards Board issued Statement No. 59, "Financial Instruments Omnibus". This pronouncement is effective for periods beginning after June 15, 2010. Earlier application is encouraged. The objective of this Statement is to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. The District has not determined the effect on the financial statement in the year of adoption.

C) Basis of Presentation

The basic financial statements of the Yuima Municipal Water District have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for governmental accounting and financial reporting purposes.

The accompanying financial statements are presented on the basis set forth in Government Accounting Standards Board Statements No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, No. 36, *Recipient Reporting for Certain Non-exchange Revenues, an Amendment of GASB Statement No.33*, No. 37, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments; Omnibus*, and No. 38, *Certain Financial Statement Note Disclosures*.

These statements require that the financial statements described below be presented:

Government-wide Statements: The Government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are expenses that are clearly identifiable with a specific program, project, function or segment. Program revenues of the District include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Taxes and other items that are properly not included among program revenues are reported instead as general revenues.

Fund Financial Statements: Separate financial statements are provided for the governmental fund and proprietary fund.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

D) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds of the primary government are grouped, in the financial statements in this report, into two generic fund types and two broad fund categories as follows:

Proprietary Funds are accounted for on the flow of *economic resources measurement focus* and use the *accrual basis of accounting*. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The District has one type of Proprietary Fund, which is an Enterprise Fund.

Enterprise Funds are used to account for operations where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The District maintains one Enterprise Fund, the Water Department, to account for the operations of the District's utility services. In accordance with GASB Statement No. 20, the District has elected to apply only those Financial Accounting Standard Board Statements and interpretations issued prior to November 30, 1989.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Governmental Funds are used to account for the District's Fire activities. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, intergovernmental revenues, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual, and are therefore recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

D) Measurement Focus, Basis of Accounting and Financial Statement Presentation - Continued

The District has one Special Revenue Governmental Fund, which is the Fire Protection Fund. The Fire Protection Fund is used to account for all financial resources and expenditures used to provide fire protection services within the boundaries of the District.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then use unrestricted resources as they are needed.

E) Reconciliation Between the Governmental Fund Financial Statements and Government-wide Statements

The District has one governmental fund that provides fire protection services through the California Department of Forestry. These services are paid for through special assessments. The District currently has no capital assets, long-term debt or other reconciling items necessary to reconcile between the Governmental fund financial statements and the Government-wide statements.

F) Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents consists of short-term highly liquid investments with maturities of 90 days or less.

G) Investments

As a governmental entity other than an external investment pool in accordance with GASB 31, the District's investments are stated at fair value.

In applying GASB 31, the District utilized the following methods and assumptions:

- 1) Fair value is based on quoted market prices as of the valuation date;
- 2) The portfolio did not hold investments in any of the following:
 - a) Items required to be reported at amortized cost,
 - b) Items in external pools that are not SEC-registered,
 - c) Items subject to involuntary participation in an external pool,
 - d) Items associated with a fund other than the fund to which the income is assigned;
- 3) Aside from investments clearly identified as belonging to a specific fund, any unrealized gain/loss resulting from the valuation will be recognized within the General Fund to the extent its cash and investments' balance exceeds the cumulative value of those investments subject to GASB 31;
- 4) The gain/loss resulting from valuation will be reported within the revenue account "investment income" on the Statement of Activities and the Statement of Revenues, Expenditures and Changes in Fund Balance for Governmental Funds. For Proprietary Fund Types the gain/loss from valuation will be reported within the "investment income" account on the Statement of Activities and the Statement of Revenues, Expenses and Changes in Net Assets for Proprietary Funds.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

H) Water Sales and Accounts Receivable

Water sales revenue is recorded and billed monthly when the service is rendered. During the year ended June 30, 2010, the District reported water sales to one customer which totaled approximately 31.4% as a percentage of consumption. Management has not incurred any additional expense to serve this customer, and the District has more than one source of supply to meet its needs.

I) Allowance for Uncollectible Accounts

The District does not provide an allowance for uncollectible accounts. Based upon prior experience and management's assessment of the collectibility of existing specific accounts all past due accounts have been paid. When accounts become past due, they are transferred to the tax roll and eventually collected.

J) Unbilled Services

Unbilled water services are accrued at year-end.

K) Inventory

Inventory consists of parts, materials and supplies needed to keep the plant and equipment owned by the District in efficient operating condition to supply water to their customers without interruption of such service. It is valued at cost, and when it is used, it is charged out on the first in, first out basis.

L) Capital Assets

Capital assets of the District are recorded at cost, or if donated, at approximate value on the date contributed. Contributed assets are recorded at the developer's cost or at the value determined by the developer at the date of contribution. The District does not capitalize interest costs incurred on the construction of capital assets. Assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Years</u>
General Plant	5-30
Source of Supply	10-50
Pumping Plant	25
Water Treatment Plant	33 1/3
Transmission and Distribution	33 1/3

M) Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation, sick, comp and other leave benefits. Sick leave, upon termination, separation or retirement will be paid out at a rate of 50% of the accumulated balance. All other leave balances are paid 100% upon termination, separation or retirement. The accrued liabilities for compensated absences are reflected in the government-wide and proprietary fund financial statements. Currently, there are no compensated absences associated with the governmental activities.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

1) REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES - Continued

N) Restricted Assets

Amounts shown as restricted assets have been restricted by either bond indenture, by law, or contractual obligations to be used for specified purposes, such as serving bonded debt and construction of capital assets.

O) Property Tax

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

Lien Date	January	
Levy Year	July 1 to June 30	
Due Dates	November 1	1 st Installment
	February 1	2 nd Installment
Delinquent Dates	December 10	1 st Installment
	April 10	2 nd Installment

Under California law, property taxes and other charges (such as assessments) are assessed and collected by counties up to 1% of assessed value, plus other increases approved by voters. Property tax revenues are pooled and then allocated to entities based on complex formulas prescribed by state statutes.

P) Capitalized Expenses

Certain administrative and general expenses, relating to assets under construction, are charged to construction-in-progress until the assets are ready for their intended use. Upon completion of major utility plant additions the capitalized cost is recorded as part of the asset to which it is related and is depreciated over the estimated useful life of the related asset.

Q) Use of Estimates

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and necessarily include amounts based on estimates and assumptions by Management.

2) CASH AND INVESTMENTS

Cash and Investments

Cash and Investments as of June 30, 2010 are classified in the accompanying financial statements as follows:

Statement of Net Assets:	
Cash and Investments	<u>\$ 3,472,755</u>

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

2) CASH AND INVESTMENTS - Continued

Cash and Investments - Continued

Cash and investments as of June 30, 2010 consist of the following:

Cash on Hand	\$	500
Deposits with Financial Institutions		1,111,864
Investments		<u>2,360,391</u>
 Total Cash and Investments		 <u>\$ 3,472,755</u>

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized by the District's investment policy. The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Percentage Of Portfolio ⁽¹⁾	Maximum Investment In One Issuer
Local Agency Bonds	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Negotiable Certificates of Deposit	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	None
JPA Pools (Other Investment Pools)	N/A	None	None

⁽¹⁾Excluding amounts held by bond trustee that are not subject to California Government Code Restrictions.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

As of June 30, 2010 the District had the following investments:

		Maturity Date		Weighted Average Maturity (Years)
State Investment Pool (LAIF)	\$ 2,360,391	N/A		0.53

*The District has various non-negotiable Certificates of Deposit with various maturity dates, however, these amounts are considered to be deposits with institutions rather than investments.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

2) CASH AND INVESTMENTS - Continued

Disclosures Relating to Credit Risk - Continued

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code or the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

<u>Investment Type</u>	<u>Minimum Legal Rating</u>	<u>Exempt From Disclosure</u>	<u>Rating as of Year End</u>		
			<u>AAA</u>	<u>Aa</u>	<u>Not Rated</u>
State Investment Pool (LAIF) \$ 2,360,391	N/A	\$	\$	\$	\$ 2,360,391

Concentration of Credit Risk

The investment policy of the District contains no limitation on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. As of year end, the District had no investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2010 none of the District's deposits with financial institutions were in excess of federal depository insurance limits.

Local Agency Investment Fund (LAIF)

The yield of LAIF for the quarter ended June 30, 2010 was 0.528%. The estimated amortized cost and fair value of the LAIF Pool at June 30, 2010 was \$69,441,630,091 and \$69,555,776,591, respectively. The District's share of the Pool at June 30, 2010 was approximately .003394 percent.

Notes to Financial Statements
Year Ended June 30, 2010

2) CASH AND INVESTMENTS - Continued

Local Agency Investment Fund (LAIF) - Continued

The LAIF is a special fund of the California State Treasury through which local governments may pool investments. It is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. Each district may invest up to \$50,000,000 in the Fund. Investments in LAIF are highly liquid, as deposits can be converted to cash within twenty-four hours without loss of interest. Investments in LAIF are secured by the full faith and credit of the State of California. The fair value of the District's investment in this Pool is reported in the accompanying financial statements based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are certain derivative securities or similar products in the form of structured notes and asset-backed securities totaling \$625,119,000 and \$3,130,602,000. LAIF's (and the District's) exposure to risk (credit, market or legal) is not currently available.

3) CAPITAL ASSETS

Capital asset activity for the year was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Business-type Activities:				
Capital Assets, Not Depreciated:				
Land and Improvements	\$ 1,300,707	\$	\$	\$ 1,300,707

Business-type Activities Capital Assets, Net of Depreciation	<u>\$ 14,053,792</u>	<u>(237,978)</u>	<u>1,816,671</u>	<u>\$ 11,999,143</u>

* Included in this amount is a special item for \$1,743,195, see Note 13.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

3) CAPITAL ASSETS - Continued

Depreciation expense was charged to functions/programs of the primary government as follows:

Business-type Activities:

Water Enterprise \$ 468,896

4) LONG-TERM LIABILITIES

The following is a summary of changes in Business-type Long-term liabilities for the year:

Description	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Compensated Absences (Note 1) Note Payable:	\$ 201,498	\$ 50,374	\$ 81,248	\$ 170,624	\$ 42,566
2004 Installment Note	954,532		121,719	832,813	126,301
2007 Installment Note	1,353,772		38,674	1,315,098	80,024
Net OPEB Obligation (Note 6)	<u>255,258</u>	<u>163,864</u>	<u>35,759</u>	<u>383,363</u>	
 Total	 <u>\$ 2,765,060</u>	 <u>\$ 214,238</u>	 <u>\$ 277,400</u>	 <u>\$ 2,701,898</u>	 <u>\$ 248,891</u>

Notes Payable - 2004 Installment Note - On April 19, 2004, the District entered into an installment sale agreement with Municipal Financial Corporation for \$1,500,000 payable to City National Bank. The agreement is to provide financing for the construction of water storage facilities known as Eastside 3M tank and pump station. Principal and interest on the agreement is payable April 21st and October 21st of each year. Interest on the agreement accrues at 3.73%. Principal on the agreement is payable in semi-annual installments ranging from \$50,124 to \$76,669, commencing October 21, 2004, through April 21, 2016. The agreement requires a maintenance of water system revenues that the pledged net system revenues are in an amount, which will be sufficient to be at least equal to one hundred twenty five percent (125%) of the annual debt service for such fiscal year.

	For the Year Ended June 30.	Principal	Interest	Total
2011		\$ 126,301	\$ 29,897	\$ 156,198
2012		131,056	25,142	156,198
2013		135,990	20,208	156,198
2014		141,109	15,089	156,198
2015		146,422	9,776	156,198
2016		<u>151,935</u>	<u>4,263</u>	<u>156,198</u>
 Total		 <u>\$ 832,813</u>	 <u>\$ 104,375</u>	 <u>\$ 937,188</u>

Notes to Financial Statements
Year Ended June 30, 2010

4) LONG-TERM LIABILITIES - Continued

Notes Payable - 2007 Installment Note - On August 27, 2007, the District entered into an installment sale agreement with Municipal Finance Corporation for \$1,500,000 payable to Citizens Bank. The agreement is to provide financing for the construction of a water storage tank and a pump station in IDA, known as Tank 8. Principal and interest on the agreement is payable January 15th and July 15th of each year. Interest on the agreement accrues at 4.58%. Principal on the agreement is payable in semi-annual installments ranging from \$35,325 to \$68,115, commencing January 15, 2008, through July 15, 2022. The agreement requires the District to maintain the pledged net system revenues to be at least equal to one hundred twenty five percent (125%) of the annual debt service for such fiscal year.

For the Year Ended June 30,	Principal	Interest	Total
2011	\$ 80,024	\$ 59,326	\$ 139,350
2012	83,731	55,619	139,350
2013	87,610	51,740	139,350
2014	91,668	47,682	139,350
2015	95,915	43,435	139,350
2016-2020	550,486	146,263	696,749
2021-2023	325,664	22,711	348,375
Total	\$ 1,315,098	\$ 426,776	\$ 1,741,874

Pledged Revenues

The District has pledged a portion of future water activities revenues to repay its 2004 and 2007 Installment Notes Payable to Citizens and City National Bank under the agreement with Municipal Finance Corporation. The note payables are secured solely by operating revenues from the proprietary fund. Total principal and interest remaining on the note payables are \$2,679,062 payable through fiscal year 2023. For the current year, principal and interest paid by the operating revenues were \$160,393 and \$65,481, respectively.

5) DISTRICT EMPLOYEES' RETIREMENT PLAN (DEFINED BENEFIT PENSION PLAN)

Plan Description

The Yuima Municipal Water District contributes to the California Public Employees Retirement System (PERS), an agent multiple-employer public employee defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and District ordinance. As of fiscal year 2006, entities participating in the California Public Employees Retirement System (PERS) with less than one hundred members, are mandated by the State to be in a risk pool. The District has less than one hundred members participating in PERS and has presented information based on the requirements of cost-sharing multiple-employer defined benefits plans since certain information for an agent multiple-employer defined benefit plan are unavailable. Copies of the PERS' annual financial report may be obtained from their executive office: 400 P Street, Sacramento, California 95814.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

5) DISTRICT EMPLOYEES' RETIREMENT PLAN (DEFINED BENEFIT PENSION PLAN) - Continued

Funding Policy

The District has elected to make the required participant contributions on behalf of its employees which is 8% of their annual covered salary. The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required contribution rate for the year ended June 30, 2010 was 29.337%. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS.

Miscellaneous Employees

For 2009-10, the District's annual pension cost for miscellaneous employees, of \$318,218 for PERS was equal to the District's required and actual contributions. The required contribution for fiscal year 2009-10 was determined as part of the June 30, 2007, actuarial valuation using the entry age normal actuarial cost method.

The actuarial value of PERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period (smoothed market value).

<u>THREE-YEAR TREND INFORMATION FOR PERS</u>		
<u>Fiscal Year</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>
6/30/08	\$ 340,331	100%
6/30/09	\$ 328,515	100%
6/30/10	\$ 318,218	100%

6) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Benefit Plan"). In May 2000, the District Board of Directors approved and adopted the plan to be effective July 1, 2000. The Plan is permitted under Government Code Section 53200 et. seq., and generally provides that the District will pay all or a portion of the premiums for certain post employment health insurance coverage for eligible management employees. Benefit provisions are established and amended by the Board of Directors. The Retiree Health Benefit Plan does issue a publicly available financial report, which can be obtained from the District's office at 34928 Valley Center Road, Pauma Valley, California 92061-0177.

Funding Policy

Contributions to the plan are made solely by the District. The District contributes a percentage of the health insurance premiums based on the age of the employee when they retire or if they become disabled. For the fiscal year ended June 30, 2010, the District made no contributions to the Plan. The District, currently, has two retirees receiving benefits from the plan.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

6) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

Funding Policy - Continued

Below are the retirement ages and corresponding percentages that the District will contribute to the Plan.

<u>Retirement Age and Benefit Units</u>	<u>% of Premium</u>
65	50%
66	55%
67	60%
68	65%
69	70%
70	75%
71	80%
72	85%
73	90%
74	95%
75	100%

*Disabled employees, who become disabled before attaining the age 65, will receive contributions that are 50% of their health insurance premium.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The District has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB Statement 45 for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's Net OPEB obligation to the Retiree Health Plan:

Annual Required Contribution	\$	152,869
Interest on Net OPEB Obligation		10,995
Adjustments to Annual Required Contribution		<u>(35,759)</u>
Annual OPEB Cost (Expense)		128,105
Contributions Made		<u>-</u>
Increase (Decrease) in Net OPEB Obligation		128,105
Net OPEB Obligation - Beginning of Year		<u>255,258</u>
Net OPEB Obligation - End of Year	\$	<u><u>383,363</u></u>

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

6) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

Annual OPEB Cost and Net OPEB Obligation - Continued

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the Net OPEB obligation for fiscal year 2010 and the two preceding fiscal years were as follows:

THREE-YEAR TREND INFORMATION				
Fiscal Year Ended	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net Obligation	
6/30/08	\$ 123,386	0.0%	\$	123,386
6/30/09	\$ 123,386	0.0%	\$	255,258
6/30/10	\$ 128,105	0.0%	\$	383,363

Funded Status and Funding Progress

As of June 30, 2010, the actuarial accrued liability for benefits was \$1,224,245, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$509,222, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 240.4 percent.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as *required supplementary information* following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement Age for Active Employees - Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 65, or at the first year in which the member would qualify for benefits.

Marital Status - Marital status of members at the calculation date was assumed to continue throughout retirement.

Mortality - Life expectancies were based on mortality tables from the National Center for Health Statistics. The 1999 United States Life Tables for Males and for Females were used.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

6) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

Methods and Assumptions - Continued

Turnover - Non-group-specific age-based turnover data from GASB Statement 45 were used as the basis for assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid.

Healthcare Cost Trend Rate - The expected rate of increase in healthcare insurance premiums was based on projections from the National Health Expenditures (NHE) reports issued in January 2010. These reports used information from the Office of the Actuary at the Centers for Medicare & Medicaid Services. A rate of 21.7 percent initially, reduced to an ultimate rate of 6.8 percent after six years, was used.

Health Insurance Premiums - 2010 health insurance premiums for retirees were used as the basis for calculation of the present value of total benefits to be paid.

Inflation Rate - The expected long-term inflation assumption of 3.0 percent was based on the payroll growth rate.

Payroll Growth Rate - The expected long-term payroll growth rate was based on an average of the prior ten years.

Based on the historical and expected returns of the District's short-term investment portfolio, a discount rate of 7.75 percent was used. In addition, a simplified version of the entry age actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2010, was thirty years.

7) DEFERRED COMPENSATION PLAN

The District offers their employees a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan is under three investment group contracts, American United Life, Valic and CalPERS, which offer a fixed and variable rate, respectively. The plan permits employees to defer a portion of their salary until future retirement years. Eligibility to participate is after six months of service. The plan requires a minimum of \$25 per month to be allocated for each option preference. The maximum amount that may be deferred under this plan for the calendar year 2010 was \$15,500 per participant and is \$15,500 for the calendar year 2009; or up to 25% of gross compensation.

8) FIRE MITIGATION FEE PROGRAM

On March 20, 1987 the Board of Directors of the District passed Resolution Number 404-87 effective July 1, 1987 establishing a Fire Mitigation Fee Program. Since that time, the District has annually re-established participation in the program. The Board resolved to participate in the San Diego County's Fire Mitigation Fee Program whereby the District requests the County of San Diego to collect 100% of the ceiling amount of the fire mitigation fee on the District's behalf from applicants for building permits or other permits for development. This percent of ceiling fee is equal to or less than capital facility expansion needs caused by new development. Mitigation fees paid under this program will be used to expand the availability of capital facilities and equipment to serve new development. A separate budget accounting category has been set up on the books of the District to be known as the San Diego County Fire Mitigation Fee Fund.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

9) NET ASSETS - DESIGNATED

In addition to the regulatory restrictions imposed by state law, the Board of Directors by resolution allocated and designated unrestricted net asset balances for the following purposes:

	<u>Beginning of Year</u>	<u>Additions Transfers In</u>	<u>Dispositions Transfers Out</u>	<u>End of Year</u>
Customer Rate Stabilization	\$ 1,629,576	\$	\$ 916,000	\$ 713,576
Minimum Operating Reserve	1,148,118	613,725	575,000	1,186,843
Continuing Capital Projects	14,380	791,000	112,881	692,499
Vehicle Replacement	467,088		18,996	448,092
System Improvements/Planning	117,370		117,370	-
Employee Benefit Requirements	<u>456,756</u>	<u>97,230</u>	<u></u>	<u>553,986</u>
Total	<u>\$ 3,833,288</u>	<u>\$ 1,501,955</u>	<u>\$ 1,740,247</u>	<u>\$ 3,594,996</u>

10) OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Expenditures exceeded budgeted appropriations in the following individual funds:

	<u>Appropriations</u>	<u>Expenditures</u>	<u>Difference</u>
Fire Protection Fund	\$ 210,265	\$ 221,085	\$ (10,820)

11) RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District is a member of Association of California Water Agencies Joint Powers Insurance Authority (JPIA). The JPIA is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et. seq. The purpose of JPIA is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage from commercial insurance carriers to reduce its exposure to large losses.

The District pays annual premiums for its liability (auto, general, and public officials), property loss, workers' compensation, and fidelity bond coverage. They are subject to retrospective adjustments based on claims experience. The nature and amounts of these adjustments cannot be estimated and are charged or credited to expense as invoiced. The District's insurance expense for year ended June 30, 2010 was \$42,461. There were no instances in the past three years where a settlement exceeded the District's coverage.

Yuima Municipal Water District
Notes to Financial Statements
Year Ended June 30, 2010

12) COMMITMENTS AND CONTINGENCIES

Legal

The District is involved with various potential litigation matters. In the opinion of management and legal counsel, the disposition of all litigation pending will not have a material effect on the financial condition of the District.

Economic Dependency

For fiscal year ended June 30, 2010, 41% of water sold by the District is purchased from the San Diego Water Authority and 59% is produced or purchased from local groundwater sources. All electricity used by the District for pumping and operations is purchased from San Diego Gas and Electric.

13) SPECIAL ITEM

The District, in the prior years, capitalized studies for the Northern Route Pipeline project of \$1,303,172 and the Local Ground Water Study (Lisa Project) of \$440,023. The District had anticipated to complete these projects. However, based on the current economy, current demand forecasts and other factors, the District elected not to pursue the projects.

14) SUBSEQUENT EVENT

On April 26, 2010, the District authorized to establish an irrevocable trust fund through California Employers' Retiree Benefits Trust (CERBT), an agent multiple-employer healthcare trust administered by CalPERS. The agreement became effective on September 14, 2010.

REQUIRED SUPPLEMENTARY INFORMATION

Yuima Municipal Water District
Schedule of Funding Progress for OPEB
Year Ended June 30, 2010

The table below shows a three-year analysis of the actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial liability as a percentage of annual covered payroll as of June 30:

Required Supplementary Information

Yuima Municipal Water District
Notes to Required Supplementary Information
Year Ended June 30, 2010

1. BUDGETARY DATA

The budget process begins in March with input from staff with a series of goals and objectives in mind. The General Manager and Department Heads discuss the budget process and departments submit budget requests. Budget requests are refined by the Department Heads and approved by the General Manager. Following a series of Finance Committee meetings with the Board of Directors a program is presented that is fiscally sound, prudent, and necessary for the continued efficient operation of the District during the coming year. The proposed budget is then presented to the Board of Directors for review and ultimate approval in June.

Notes: The District annually performs a water rate study to determine the new water rates for the following fiscal year. The new rates are based on the amount of revenue needed and derived by a balance between a base charge for each meter and a commodity charge for the volume of water used by each customer. The allocation of revenue to the base charge and commodity charge is determined by the proportion of fixed cost and variable costs needed to produce the water supply. Typically 70-75% of revenue is derived from commodity charges (variable costs) and the remainder from the base charges (fixed costs).

Source: Yuima Municipal Water District

Notes: (1) Yuima's primary and only significant revenue source is retail water sales. The proportion of customer type that makes up the revenue base has remained relatively unchanged for the time frame presented. Agricultural and Wholesale water customers make up the largest section of the revenue base. Consequently, demand peaks sharply during dry years when irrigation requirements are greatest and drops during wet years. As a result in fiscal years of higher rainfall a corresponding dip in Total Acre Feet Sold can be seen.

(2) Although revenue by customer type is not presented separately on the face of the financial statements, these revenues are recorded separately in the District's general ledger for tracking purposes.

(3) Rainfall is measured at the "Barrett" property located at the top of Quail Drive, Pauma Valley, California at an elevation of 2,055 ft.

Notes: (1) Yuima is an established water district which is reflected in the relatively small increases in employees over this ten year period.

(2) The employee count represents the head count for the employees in each department.

(3) 2010 Data represents the first 11 months of the fiscal year. Staff reductions resulted in one less field staff position and one less administrative staff position for a total of 9 employees with an average of 11.6 years of service
